spaces. The real-time representation may be in the form of a textual listing, a graphical map, a video image, an Internet Web page or similar form. When presented with the real-time representation of the parking lot, a commuter can readily locate an available parking space or decide to search for parking elsewhere.

1. The first part of the report, which is the most important, is the introduction. It should be written in a clear and concise manner, and should state the purpose of the study and the objectives of the research.
